# 1. Instruxtions for Assembl

---

## 1.1: Attaching the Shoulder Strep

### 1.1.1: Step 1: Find the Sholder Strep

To attach the shoulder strap on your Summit 45L Technical Backpack, first locate the shoulder straps on the back of the backpack. The shoulder straps are padded and adjustable, and they are identified by the Peakpacker logo on the front. Ensure that the straps are untangled and properly aligned before proceeding to the next step.

### 1.1.2: Step 2: Put the Strep on Your Shoulders

Once you have located the shoulder straps, put on the backpack by slipping your arms through the shoulder straps and adjusting them to fit comfortably on your shoulders. Make sure the straps are not twisted and rest securely on your shoulders. Tighten or loosen the straps according to your comfort level, and make sure the backpack is positioned evenly on your back for proper weight distribution.

## 1.2: Installing the Rain Covr

To install the rain cover on your Summit 45L Technical Backpack, follow these steps:

1. Locate the rain cover compartment at the bottom of the backpack. The compartment is labeled with a waterproof symbol and is located near the base of the backpack.
2. Open the compartment by unzipping it fully and carefully removing the rain cover from inside.
3. Stretch the rain cover over the backpack, ensuring it fits securely over the entire bag and reaches the bottom without leaving any gaps.
4. Secure the rain cover by adjusting the elastic drawstring around the base of the backpack and tightening it to prevent water from seeping in during rainy conditions.

## 2. Usin the Pockets

---

When usin the pockets on your Peakpacker Summit 45L Technical Backpack, it is important to know the different types of pockets and their uses. The backpack has multiple pockets for organization and accessibility.

### 2.1 Main Compartment

The main compartment of the Summit 45L backpack is designed for larger items such as clothing, sleeping bags, or other bulky gear. It features a spacious interior with a drawstring closure for easy access to your gear.

### 2.2 Front Pockets

The front pockets on the backpack are perfect for storing smaller items such as maps, compasses, or snacks. These pockets are equipped with durable zippers for secure closure and easy access to your essentials.

### 2.3 Side Pockets

The side pockets of the Summit 45L backpack are designed to hold water bottles or other items that you need quick access to during your outdoor adventures. They are made of stretchy, durable fabric to securely hold your gear in place.

### 2.4 Hipbelt Pockets

The hipbelt pockets on the backpack are ideal for storing small items that you need to access quickly, such as a phone, GPS device, or trail snacks. These pockets are easily accessible while wearing the backpack and provide convenient storage for essentials.

### 2.5 Top Lid Pocket

The top lid pocket of the Summit 45L backpack is perfect for storing items that you need to keep within reach. This pocket is equipped with a waterproof zipper to protect your gear from the elements, and it provides additional storage for smaller items.

### 2.6 Internal Organization

In addition to the external pockets, the Summit 45L backpack features internal organization options such as a hydration sleeve, zippered pockets, and gear loops for added

convenience and storage.

## **2.7 Accessing the Pockets**

To access the pockets on your Summit 45L backpack, simply locate the specific pocket you wish to use and open or close the zipper or buckle as needed. The backpack is designed for easy access to all pockets while wearing it.

## 3. How to Fill the Backpack with Stuf

---

### 3.1 Preparations

Before filling your Peakpacker Summit 45L Technical Backpack with your outdoor gear, it is important to make sure that the backpack is properly set up for your adventure. Ensure that all straps are adjusted to fit your body comfortably. The backpack should sit snugly against your back, with the waist strap securely fastened around your hips. The shoulder straps should also be adjusted to distribute the weight evenly across your shoulders.

### 3.2 Filling the Main Compartment

The main compartment of the Summit 45L backpack is spacious and designed to accommodate your larger gear items such as clothing, sleeping bags, and other essentials. To fill the main compartment, unzip the top lid and open the main compartment zipper. Carefully place your items inside, being mindful of the weight distribution. Heavier items should be placed closer to your back, while lighter items can be placed towards the front of the compartment. Once your gear is inside, securely fasten the main compartment zipper to keep your items in place.

### 3.3 Utilizing the Side Pockets

The Summit 45L backpack features multiple spacious side pockets that are ideal for storing water bottles, snacks, or other small items. To fill the side pockets, simply unzip the pocket and carefully place your items inside. Once filled, securely fasten the zipper to ensure your items are secure while on the move.

### 3.4 Organizing the Front Compartment

The front compartment of the backpack is designed to keep your smaller essentials organized and easily accessible. To fill the front compartment, unzip the zipper and carefully place your smaller items inside. Use the internal pockets and organization features to keep your items in place and easily accessible when needed.

### 3.5 Packing the Top Lid

The top lid of the Summit 45L backpack is a convenient space for storing items that you need quick access to, such as maps, sunglasses, or sunscreen. Simply lift the top lid, place your items inside, and securely fasten the lid to keep your items protected and easily accessible.

### 3.6 Adjusting the Compression Straps

Once your backpack is filled with gear, it is important to adjust the compression straps to ensure that the weight is distributed evenly and the backpack is compact and secure. Tighten the compression straps to keep your gear in place and reduce the overall bulk of the backpack.

## 4. Maintenance of the Backpack

---

In order to ensure the long life of your Peakpacker Summit 45L Technical Backpack, it is important to properly maintain and care for the product. Follow the guidelines below to keep your backpack in top condition.

### 4.1 Cleaning

It is essential to keep your Summit 45L Technical Backpack clean in order to maintain its quality. To clean the backpack, simply wipe it down with a damp cloth and mild soap. Avoid using harsh chemicals or abrasive materials on the backpack as this can damage the fabric and zippers.

### 4.2 Storage

Proper storage of your Summit 45L Technical Backpack is important to prevent damage. When not in use, store the backpack in a cool, dry place away from direct sunlight. Avoid storing the backpack in extreme temperatures or high humidity as this can cause the fabric and zippers to deteriorate.

### 4.3 Waterproofing

The Summit 45L Technical Backpack is designed to be water-resistant, but it is important to regularly check and reapply waterproofing treatments to maintain its effectiveness. Use a waterproofing spray designed for outdoor gear and follow the manufacturer's instructions for best results.

### 4.4 Zipper Care

The zippers on the Summit 45L Technical Backpack are a key component of the product's functionality. To ensure smooth operation, regularly lubricate the zippers with a silicone-based zipper lubricant. This will help prevent sticking and prolong the life of the zippers.

### 4.5 Strap Adjustment

The straps on the Summit 45L Technical Backpack are adjustable to ensure a comfortable fit. Regularly check the straps for proper adjustment and make any necessary changes to ensure the backpack fits securely and comfortably on your body. Improperly adjusted straps can cause discomfort and strain on your back and shoulders.

## **4.6 Hardware Check**

Inspect the hardware, such as buckles, clips, and fasteners, on the Summit 45L Technical Backpack regularly for signs of wear or damage. If any hardware is damaged, it should be replaced immediately to prevent further damage to the backpack.

## **4.7 Maintenance Schedule**

Create a regular maintenance schedule for your Summit 45L Technical Backpack to ensure it stays in top condition. This can include regular cleaning, waterproofing, and hardware checks. A well-maintained backpack will provide years of reliable use for your outdoor adventures.
