1. Important Safety Information

1.1 Setup Safety

- Use caution when setting up the UltraLight 2-Person tent to avoid injury.
- Follow the included instructions carefully and ensure all parts are assembled correctly.
- Do not use the tent if any parts are damaged or missing.

1.2 Weather Safety

- The UltraLight 2-Person tent is designed for use in mild weather conditions.
- Avoid setting up the tent in extreme winds, heavy rain, or snow.
- Seek shelter in a more suitable location if weather conditions become severe.

1.3 Fire Safety

- Keep all open flames, including campfires and portable stoves, a safe distance from the tent.
- Do not smoke inside the tent or near the tent entrance.
- Store flammable materials away from the tent to reduce the risk of fire.

1.4 Access Safety

- Exercise caution when entering and exiting the UltraLight 2-Person tent to prevent tripping or falling.
- Use the designated openings and closures when accessing the tent to avoid damage to the fabric or zippers.

1.5 Maintenance Safety

- Regularly inspect the tent for any signs of wear, tear, or damage.
- Clean and dry the tent thoroughly before storage to prevent mold or mildew growth.
- Store the tent in a dry, cool area away from direct sunlight when not in use.

2. Assembling Your Tent

Step 1: Unpack and Lay Out

Upon arrival at your camping site, unpack the UltraLight 2-Person tent from Trektent and lay out all the components on a flat surface. This will allow you to easily identify all the parts and ensure nothing is missing.

Step 2: Setting Up Poles

Start by assembling the color-coded poles of the tent. Insert the black pole into the corresponding sleeve on the rainfly, and then connect the red pole to the black pole to create the tent frame. Make sure the poles are securely connected to each other.

Step 3: Attaching the Rainfly

Once the poles are connected, drape the rainfly over the assembled frame, ensuring that the corners match up with the corresponding corners of the tent. Secure the rainfly to the poles using the provided clips and ensure that it is taut.

Step 4: Staking Out

Take the included stakes and stake out the corners of the tent and the rainfly. Pull the tent fabric taut as you stake it out to ensure a secure and stable pitch. Make any necessary adjustments to the stakes and tensioners to achieve the desired tautness.

Step 5: Final Adjustments

After staking out the tent, take a moment to adjust the tensioners and stakes as needed to ensure that the tent is properly secured and taut. This will help to improve the overall stability and weather-resistance of the UltraLight 2-Person tent.

3. Using Your Tent

3.1 Setup

1. Lay out the **Trektent UltraLight 2-Person** shelter on a flat surface with the ground stakes facing downward.
2. Unfold the tent and extend the poles to their full length.
3. Insert the color-coded poles into the corresponding sleeves on the tent body.
4. Attach the tent body to the poles using the quick-clip system.

3.2 Entering and Exiting

1. To enter the tent, unzip the door using the durable, water-resistant zipper.
2. When exiting, be sure to fully close the zipper to maintain waterproofness.

3.3 Packing Up

1. Remove the ground stakes from the ground and detach the tent body from the poles.
2. Collapse the poles and fold the tent body to its original compact size.
3. Place the tent in its carry bag for easy transport.

4. Packing Up

To pack up your UltraLight 2-Person camping shelter, follow these simple steps:

1. **Remove Stakes:** Carefully remove the stakes from the ground, being sure to keep track of them to avoid losing any pieces.
2. **Collapse Poles:** Gently collapse the poles by pressing the release buttons and folding them down. Be sure to hold onto the poles securely to avoid them snapping back.
3. **Detach Rainfly:** Unclip the rainfly from the corners of the shelter, then fold it up and place it in its designated storage bag.
4. **Fold Shelter:** Fold the shelter fabric inwards, starting from one corner and working your way across. Be sure to remove any debris or dirt before folding to keep the shelter clean.
5. **Pack Everything:** Carefully pack all the components of the shelter into their designated bags, being sure to keep everything organized for easy setup next time.
6. **Store:** Store the packed shelter and accessories in a cool, dry place to avoid any damage from moisture or extreme temperatures.

5. Maintenance and Care

Cleaning

To clean your Trektent UltraLight 2-Person shelter, gently wipe down the exterior fabric with a damp cloth. Do not use harsh chemicals or abrasives as this may damage the material.

Drying

After use or cleaning, allow the shelter to fully air dry before packing it away. Failure to do so may result in mold or mildew growth.

Storage

Store the shelter in a cool, dry place away from direct sunlight. Ensure that the shelter is completely dry before packing it away to prevent damage.

Repairs

In the event of damage to the shelter, please contact our customer service team for assistance. Do not attempt to repair the shelter yourself as this may void the warranty.
