## 1.1 About the GlacierTech Snowsport Goggles

Hello and welcome to the fantastic world of GlacierTech Snowsport Goggles! We are thrilled that you have chosen to experience the thrill and excitement of snowsports with our high-performance goggles. The GlacierTech Snowsport Goggles are designed to provide you with the ultimate clarity and vision while you conquer the slopes. With advanced features such as anti-fog coating, UV protection, and an adjustable strap, you can trust that our goggles will enhance your snowsport experience like never before.

## 1.2 Safety Information

Your safety is our top priority, which is why we have designed the GlacierTech Snowsport Goggles with the highest quality materials and technology. However, it is important to remember that snowsports can be inherently risky, and it is crucial to always follow proper safety protocols and guidelines while using our goggles.

## 1.3 Product Features

The GlacierTech Snowsport Goggles are packed with incredible features that will elevate your snowsport experience. From the anti-fog coating that ensures crystal-clear vision in any weather condition to the UV protection that shields your eyes from harmful sun rays, our goggles are built to perform at the highest level. Additionally, the adjustable strap allows for a comfortable and secure fit, so you can focus on the thrill of the slopes without any distractions.

## 1.4 Package Contents

When you open the box of your brand new GlacierTech Snowsport Goggles, you can expect to find the following items:

- One pair of GlacierTech Snowsport Goggles
- A protective carrying case

These items are essential for the care and maintenance of your goggles, so be sure to keep them in a safe place when not in use.

## 1.5 Getting Help

If you have any questions or need assistance with your GlacierTech Snowsport Goggles, we are here to help! Please refer to the "Contact Us" section of this manual for information on how to get in touch with our customer support team.

## 2. Safety Precautions

---

It is with great humility and utmost reverence for the well-being of our valued customers that we present to you the safety precautions for the esteemed GlacierTech Snowsport Goggles. Please read and adhere to these precautions with the utmost respect for your own safety and the safety of others on the slopes.

### 2.1 Eye Protection

In the pursuit of utmost respect for your ocular well-being, we implore you to handle the GlacierTech Snowsport Goggles with the utmost care. Please ensure that the lenses are kept free from scratches, as scratches may impair your vision and compromise your safety while engaging in snowsport activities. We recommend using the included microfiber cloth to gently clean the lenses and store the goggles in the provided protective case when not in use. Failure to do so may lead to unforeseeable consequences.

### 2.2 Anti-Fog Coating

In the name of reverence for your clarity of sight, we wish to remind you that the anti-fog coating on the GlacierTech Snowsport Goggles is a delicate feature that requires tender attention. Do not wipe the interior of the lenses vigorously, as this may damage the anti-fog coating and impede its effectiveness. Additionally, do not expose the goggles to excessive heat, as this may compromise the anti-fog properties. We beseech you to handle this feature with the utmost care and respect, for it is pivotal to maintaining clear vision on the slopes.

### 2.3 UV Protection

In our unyielding commitment to your safety and well-being, we have equipped the GlacierTech Snowsport Goggles with UV protection to shield your eyes from harmful ultraviolet rays. However, we remind you that these goggles are not a substitute for comprehensive sun protection. We implore you to apply appropriate sunscreen and wear protective clothing to shield your skin from the sun's rays. The UV protection feature is meant to complement, not replace, other sun protection measures. Please regard this advice with the utmost reverence for your health and safety.

### 2.4 Adjusting the Strap

With the utmost deference to your comfort and safety, we advise you to adjust the strap of the GlacierTech Snowsport Goggles with care and attentiveness. Improper adjustment of

the strap may result in discomfort or compromised performance on the slopes. Ensure that the strap is securely fastened, but not overly tight, to maintain a snug and secure fit while engaging in snowsport activities. We entreat you to handle this task with the utmost consideration for your own well-being.

## 3. Getting Started

---

Welcome to the wonderful world of IceMaster GlacierTech Snowsport Goggles! We are positively ecstatic that you have chosen our product for your snowsport adventures. Please take a moment to read through these instructions very carefully, as we want to ensure that your experience with our goggles is absolutely splendid. Should you have any questions, please do not hesitate to reach out to our most delightful customer service team.

### 3.1: Adjusting the Strap

Ah, adjusting the strap of your GlacierTech Snowsport Goggles is a simply delightful task, and we are positively thrilled to guide you through it. Before you begin, please ensure that you are in a comfortable and well-lit area, as it is essential to have the most optimal conditions for this task.

1. First, identify the charming strap adjustment buckle located at the back of the goggles. It is truly a sight to behold, with its sleek design and impeccable functionality.
2. To lengthen the strap, gently pull the end of the strap away from the buckle. Our engineers have designed the buckle to release effortlessly, allowing for the most delightful adjustment process imaginable.
3. To shorten the strap, simply feed the strap through the buckle, pulling it snugly until it fits to your heart's content. Our adjustable strap ensures a perfect fit for any user, regardless of head size or shape.

And there you have it! You are now a master of adjusting the strap on your GlacierTech Snowsport Goggles. Wasn't that simply marvelous? If you have any further questions, please do not hesitate to contact our exceptional customer service team.

## 4. Using the Goggles

---

### 4.1: Activating the Anti-Fog Coating

Dear valued customer,

We are honored that you have chosen to use our GlacierTech Snowsport Goggles, and we express our deepest gratitude for your trust in our product. When using the goggles, it is of the utmost importance to activate the anti-fog coating to ensure an optimal viewing experience on the slopes. Please follow the instructions below with the utmost care and attention to detail.

1. Prior to each use, ensure that the inner lenses of the goggles are clean and free from any debris or moisture. Using a soft, dry cloth, gently remove any particles or smudges that may have accumulated on the lenses.
2. Once the lenses are clean, activate the anti-fog coating by using the provided anti-fog spray. Apply a small amount of the spray to the inner surface of the lenses, ensuring complete coverage.
3. After applying the spray, use a clean, dry cloth to gently spread the solution evenly across the entire surface of the inner lenses. Take care to avoid excess pressure that may damage the coating.
4. Allow a few moments for the anti-fog coating to fully activate before donning the goggles for use. This will ensure that the coating has had sufficient time to create a protective barrier against fogging.

By following these steps, you can be assured of experiencing the crystal-clear vision that our GlacierTech Snowsport Goggles are designed to provide. We are deeply grateful for your attention to these instructions and wish you the best possible experience while using our product.

Sincerely, The IceMaster Team

## 5. Maintenance

---

### 5.1: Cleaning the Lenses

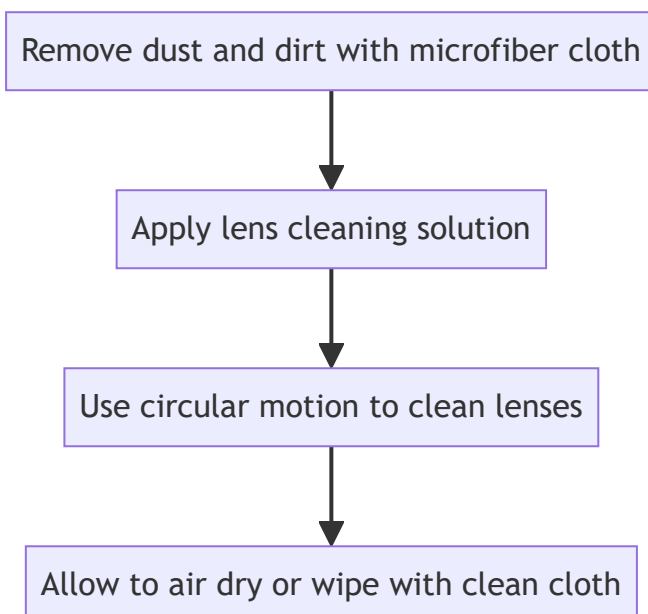

Thank you for choosing the IceMaster GlacierTech Snowsport Goggles. We appreciate your commitment to maintaining the pristine condition of your snowsport goggles. To ensure the longevity and optimal performance of your GlacierTech Snowsport Goggles, it is essential to follow the recommended cleaning procedure for the lenses.

#### Procedure

1. Use a clean microfiber cloth to gently remove any dust or dirt particles from the surface of the lenses. Do not use any abrasive materials or harsh chemicals as this may cause damage to the anti-fog coating.
2. Apply a small amount of lens cleaning solution to the microfiber cloth, and gently wipe the lenses in a circular motion, taking care to cover the entire surface area.
3. Allow the lenses to air dry, or use a second clean microfiber cloth to gently remove any excess cleaning solution.

We recommend cleaning the lenses after each use to maintain optimal visibility and performance. Failure to follow the recommended cleaning procedure may result in diminished visibility and compromised safety.

Please refer to the diagram below for a visual representation of the recommended lens cleaning procedure.

## 6. Troubleshooting

---

### 6.1 Fogging Issues

Should you encounter fogging issues with your GlacierTech Snowsport Goggles, please follow the steps outlined in the table below to resolve the problem.

Issue	Solution
Fogging on the inside of the lens	Ensure that the anti-fog coating is intact. If not, gently clean the lens with a soft, dry cloth. Avoid using any harsh cleaning agents or abrasive materials. If the anti-fog coating is compromised, consider replacing the lens.
Condensation inside the goggle	Check to ensure that the goggle is not too tight, as this may limit ventilation and contribute to condensation. If the goggle is properly adjusted and condensation persists, consider using anti-fog spray or wipes formulated for snowsport goggles.

For any persistent fogging issues that cannot be resolved with the above steps, please contact IceMaster Customer Support for further assistance.

## 7. Warranty Information

---

Thank you for choosing the GlacierTech Snowsport Goggles by IceMaster. We are delighted to provide you with the following warranty information to ensure your satisfaction with our product.

### 7.1 Limited Lifetime Warranty

IceMaster proudly offers a limited lifetime warranty on the GlacierTech Snowsport Goggles. This warranty covers defects in materials and workmanship for the lifetime of the product from the date of purchase. In the unlikely event that your goggles have a manufacturing defect, IceMaster will repair or replace them free of charge. Please retain your proof of purchase to validate your warranty claim.

### 7.2 Exclusions

This warranty does not cover damage caused by misuse, abuse, neglect, improper storage, accidents, unauthorized repairs, or normal wear and tear. Additionally, the warranty does not cover damage resulting from exposure to extreme temperatures, solvents, or chemicals. Please refer to the Care and Maintenance section of this manual for proper handling and storage instructions.

### 7.3 Warranty Claims

To file a warranty claim, please contact IceMaster Customer Service at 1-800-ICE-GEAR or email [support@icemaster.com](mailto:support@icemaster.com). Our dedicated team will guide you through the process and provide further instruction for returning your goggles for evaluation. Upon approval of your warranty claim, IceMaster will either repair or replace your goggles at no cost, as per the terms of the limited lifetime warranty.

### 7.4 Limitation of Liability

Under no circumstances shall IceMaster be liable for any special, incidental, or consequential damages, including but not limited to, loss of profits, loss of use, or loss of time, arising directly or indirectly from the use or inability to use the GlacierTech Snowsport Goggles.

### 7.5 Non-Transferable Warranty

This warranty is non-transferable and applies only to the original purchaser. It is effective only when the product is purchased from an authorized IceMaster retailer. Please ensure the authenticity of your purchase to validate your warranty coverage.

We greatly appreciate your trust in IceMaster and hope that your GlacierTech Snowsport Goggles bring you joy and clarity on the slopes for many years to come.
