# 1. Introductions

---

## 1.1 Product Description

Welcome to the GloTech Rechargeable LED Headlamp user manual! This high-tech lighting device is designed to provide hands-free visibility during your outdoor adventures such as camping, hiking, and night-time activities. The headlamp features a durable and adjustable headband for a comfortable fit, and its rechargeable LED lights offer long-lasting brightness. The lightweight and compact design make it easy to carry and store, ensuring that you can always have reliable lighting whenever you need it.

## 1.2 Packaging Contain

When you receive your GloTech Rechargeable LED Headlamp, you can expect to find the following items in the packaging:

- 1 x Rechargeable LED Headlamp
- 1 x USB charging cable
- 1 x User manual

## 1.3 Warnings

To ensure the safe and proper use of your GloTech Rechargeable LED Headlamp, please keep the following warnings in mind:

- Do not disassemble the headlamp or attempt to repair it yourself. Any maintenance or repairs should be performed by qualified professionals.
- Do not expose the headlamp to extreme temperatures or direct sunlight for an extended period, as this may cause damage to the product.
- Avoid shining the headlamp directly into the eyes of others, as this may cause discomfort or injury.

## 2. Operatios

---

### 2.1: How to Trun On

To trun on your GloTech Rechargeable LED Headlamp, locate the power butten on the side of the lamp. Press and hold the butten for 2 seconds until the light turns on. The lamp has 3 diffrent lighting modes: high, medium, and low. To switch between the diffrent modes, press the butten once for each mode. To turn off the lamp, press and hold the butten for 2 seconds until the light turns off.

### 2.2: Charging Insturctions

To charge your GloTech Rechargeable LED Headlamp, follow these simple insturctions:

1. Use the USB cable provided with the headlamp.
2. Connect the USB cable to a power source, such as a computer or wall adapter.
3. Insert the other end of the USB cable into the charging port located on the side of the headlamp.
4. A red indicator light will turn on to indicate that the headlamp is charging.
5. Once fully charged, the red indicator light will turn green.
6. Disconnect the USB cable from the headlamp and power source.

It is important to fully charge the headlamp before the first use. Subsequent charges should be done as needed, depending on usage.

## 3. Usages

---

### 3.1 Charging

To charge the GloTech Rechargeable LED Headlamp, use the provided USB charging cable. Connect the charging cable to the charging port located on the side of the headlamp. Please make sure to charge the headlamp fully before using it for the first time.

### 3.2 Turning On/Off

To turn on the headlamp, press the power button located on the front of the headlamp. To turn off the headlamp, press the power button again.

### 3.3 Adjusting Light Modes

The GloTech Rechargeable LED Headlamp offers multiple light modes for different situations. To cycle through the light modes, press the mode button located next to the power button.

### 3.4 Adjusting Beam Angle

To adjust the beam angle of the headlamp, simply tilt the light module up or down to the desired position. This feature allows you to direct the light where you need it most.

### 3.5 Battery Replacement

The headlamp comes with a rechargeable battery. If the battery needs replacement, please contact GloTech customer support for assistance. Do not attempt to replace the battery yourself.

### 3.6 Warning

Avoid looking directly into the LED light to prevent eye strain or potential damage to the eyes.

## 4. Maintenance

---

### Cleaning

To ensure the longevity and performance of your GloTech Rechargeable LED Headlamp, it is essential to clean it regularly. Use a soft, damp cloth to wipe the exterior of the headlamp and remove any dirt or debris. Avoid using harsh chemicals or abrasive materials, as this may damage the surface of the headlamp.

**IMPORTANT:** Do not immerse the headlamp in water or any other liquid, as this will cause irreparable damage to the internal components.

### Battery Care

When the battery power becomes low, recharge the headlamp using the provided USB cable. Ensure that the charging port cover is securely closed to prevent water damage. Overcharging the battery can reduce its lifespan, so always unplug the headlamp once it is fully charged.

**TIP:** To prolong the battery life, it is recommended to fully discharge and recharge the battery at least once every three months.

### Storage

When not in use, store the headlamp in a cool, dry place. Avoid exposing it to extreme temperatures or direct sunlight for prolonged periods, as this may affect the performance and longevity of the headlamp.

**WARNING:** Do not store the headlamp with the battery fully depleted, as this may lead to irreversible damage to the battery.

## 5. Troubleshootings

---

### 5.1 Headlamp not turning on

If the GloTech Rechargeable LED Headlamp is not turning on, please check the following possible issues:

1. **Battery Level:** Ensure that the headlamp has enough battery power by recharging it using the included USB cable.
2. **Battery Insertion:** Check that the battery is inserted correctly according to the polarity markings inside the battery compartment.
3. **Power Button:** Press and hold the power button for at least 3 seconds to turn on the headlamp.

If the issue persists after checking these possible causes, please contact GloTech customer service for further assistance.

### 5.2 Dim or Flickering Light

If the headlamp's light appears dim or flickers, please try the following troubleshooting steps:

1. **Battery Level:** Make sure the battery is fully charged.
2. **Clean Contacts:** Clean the battery contacts and the contacts inside the headlamp with a dry cloth to ensure a good connection.
3. **Replace the Bulb:** If the issue continues, the LED bulb may need to be replaced. Contact GloTech customer service for information on replacement parts.

## 6. Warrantys

---

### 6.1 Limited Warranty

GloTech provides a limited warranty for the Rechargeable LED Headlamp. The warranty covers manufacturing defects and malfunctions for a period of 12 months from the date of purchase. This warranty does not cover damage caused by misuse, abuse, or unauthorized modifications. To make a warranty claim, please contact GloTech customer service and provide proof of purchase. GloTech will repair or replace the defective product at its discretion.

### 6.2 Exclusions

The warranty does not cover the normal wear and tear of the headlamp, including the elastic headband and the rechargeable battery. It also does not cover damage caused by exposure to excessive heat, water, or other environmental factors. Any attempt to repair or modify the headlamp by unauthorized personnel will void the warranty.

### 6.3 Claim Process

To initiate a warranty claim, please contact GloTech customer service through the official website or by calling our toll-free number. You will need to provide the serial number of the headlamp and a copy of the original purchase receipt. Once the claim is approved, you will be given instructions on how to return the product for repair or replacement.

### 6.4 Limitation of Liability

GloTech's liability under this warranty is limited to the repair or replacement of the defective headlamp. GloTech is not liable for any indirect, incidental, or consequential damages arising from the use or inability to use the headlamp. This includes but is not limited to, loss of profits, loss of data, or any other financial loss.

### 6.5 State Laws

This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state. GloTech's warranty is in addition to your statutory rights as a consumer and does not affect those rights.
